## FISHING.

# CATALOGUE

Bluezone Fishing Limited was established in 2013 by Neil Bryant, England International Boat Angler and two times World Boat Team Champion. Neil initially focused as an Agent for a number of high quality brands that were introduced into the UK market. Since then the Bluezone Brand has itself grown with the introduction of many of its own branded products, including a high quality rig range under the Fishcatcher name. We cater for the entry level angler right up to personally designed rods being hand made in Italy exclusively for Bluezone Fishing.

Our ethos is to search out top quality products from respected brands throughout the World and bring them into the UK so that our developing angler can have access to some of the finest quality products available. With this in mind, Bluezone are now the exclusive UK distributors for Sasame, the renowned manufacturers of high quality Japanese Brand of Hooks, Lines and Terminal Tackle that also include the Shout, Ryugi and Jungle Gym ranges of tackle. Also, we are proud to be the exclusive UK distributor for Artico SRL, who specialise in hand made rods being manufactured in the families factory in Pordenone, Northern Italy. These two brands offer a wide variety of top quality fishing tackle products for all disciplines and Bluezone are very proud to be working exclusively with them in growing the trust in the quality throughout the UK.

Our focus has also been to make it easy for the consumer to be able to purchase these products so we are pleased to be working alongside a number of respected tackle shops and also some larger store groups throughout the UK, making it easier for everyone to gain access to these top quality products.

We will continue to develop our ranges over the coming years and to provide a quality service to our selected partners and to look for the newest trends in tackle from leading manufacturers as well as developing our own style of products.

Thank you for supporting our brands and if you have any specific requirements we would be pleased to hear from you.

Neil Bryant

Artico Rods are manufactured in Italy by craftsmen with years of experience in modern and traditional production processes and incorporate the highest quality carbons and raw materials to produce a rod that is fit for purpose. Artico produce a superb range of Boat, Surf Casting, Big Game (Popping & Vertical Jigging) and Travel Rods for the discerning General Angler to the Top International Angler's

## BOAT RODS

### Artico Dinamite TNT Medium

The Dinamite Medium covers the lighter casting weights from 100-160grams and is well balanced and is a good compromise between power and sensitivity but is great fun to use and you can feel the energy of the fish right through the blank, unlike softer through action rods, so you get full enjoyment from the fight. However, should you need to use additional pressure on the fish or it lunges there is sufficient forgiveness in the blank to maintain hold of your prey.

Tips	Length (m)	Section	Casting Weight
2	4.0	6	100 - 160g
2	5.0	7	100 - 160g

### Artico Dinamite TNT Extreme

The Dinamite TNT Extreme is the most powerful and versatile of the range and you can fish for just about anything as it can handle weights from 100 to 500grams: When testing the rod easily handled fishing with 1KG. The Stem Stress M40J Carbon mixed with the HM30S guarantees progressive power mostly seen in heavier, bulky rods. The Dinamite TNT Extreme is suitable for most types of fishing from top, mid water and bottom fishing for Conger, Cod and other large predators.

Tips	Length (m)	Section	Casting Weight
2	2.80	5	100-500g
2	3.60	6	100-500g

### Artico Dinamite TNT Strong

The Dinamite TNT Strong covers the medium casting weights from 100-200grams and is well designed and the performance is nothing short of exceptional. What strikes immediately is the ease with which it handles casting 200grams. No other telescopic rod has ever cast these weights so simply! When fishing the power of the rod is amazing, so great that when you have a fish on the blank is sensitive enough to allow the angler to appreciate how big the prey is, even at considerable depth.

Tips	Length (m)	Section	Casting Weight
2	4.0	6	100 - 200g
2	5.0	7	100 - 200g

### Artico X-Power 3.80m

The X-POWER 3.80m is a 3 piece lightweight telescopic rod specifically designed for deep sea boat fishing. Featuring a double grommet system allowing you to fish at lengths of 3.0m (fully closed) 3.40m and 3.80 (fully extended) the rod is exceptionally versatile.

Made in Italy from Artico's finest high Modulus carbon blend it can handle weights between 30-250grm and as its name suggests offers the serious boat angler a powerful rod but at the same time maintaining the feel of a much lighter rod. It comes with a very strong, sensitive tip.

Tips	Length (m)	Section	Casting Weight
1	3.00 - 3.80	2	30-250g

Along with Bluezone Telepower 300 and 360 the Kraken NP has been designed in conjunction with top English International and England Team Captain Neil Bryant and is the latest Exclusive addition to Bluezone Fishing.

### Bluezone Telepower 300

The ultimate in lightweight telescopic rods specifically designed for boat and kayak fishing for inshore species such as Bream, Plaice and Bass. Being the shorter of the two the Telepower 300 comes into its own drift fishing from a kayak and features a super slim blank that can be fished at lengths of 2.4 and 2.9m with the use of a grommet fixed to the second section. This extremely light and sensitive rod comes with two tips, a medium and strong that can handle weights between 100-200g.

Tips	Length (m)	Section	Casting Weight
2	2.40 - 2.90	6	100 - 200g

### Bluezone Telepower 360

The longest in the series, the Telepower 360 is best suited off the boat with the additional length offering more than enough grunt to handle larger species such as Tope and Cod. Featuring the same super slim blank as the 300 it can be fished at lengths of 2.9 and 3.4m with the use of a grommet fixed to the second section. This extremely light and sensitive rod comes with two tips, a medium and strong that can handle weights between 100-200g.

Tips	Length (m)	Section	Casting Weight
2	2.90 - 3.40	6	100 - 200g

### Artico Kraken NP

Powerful, easy to use and well balanced. Suitable for top, mid water and bottom fishing for small and large fish such as Conger and Cod using weights up to 300g. Available in 3.60m, 4.20m and 4.80 lengths with a grommet fixed to the first section. Two hand made nylon tips are especially made for this rod.

Tips	Length (m)	Section	Casting Weight
2	3.60	7	50-300g
2	4.20	7	50-300g
2	4.80	8	50-300g

**“Superb sport with Plaice on the Bluezone Telepower”**

Artico LA150 and LA200 have been designed in collaboration with Italian International Champions, Dominica and Mauro Salvatori specifically for fishing at World Championship events. Powerful yet extremely light, these rods are one of the best on the market for competition fishing.

### Artico LA150 Series

Specific balanced rods capable of casting weights up to 100, 150 and 200grams and that is what was developed and now these rods are one of the best for competition fishing on the market. Made with a high number of sections, they are fast, powerful and feature an excellent performance when casting. Available in 4 and 5m lengths, with a grommet fixed to the first section to extend or reduce the length you fish at.

Tips	Length (m)	Section	Casting Weight
2	4	6	100 - 200g
2	5	6	100 - 200g

### Artico LA200 Series

Specific balanced rods capable of casting weights up to 100, 150 and 200grams and that is what was developed and now these rods are one of the best for competition fishing on the market. Made with a high number of sections, they are fast, powerful and feature an excellent performance when casting. Available in 4 and 5m lengths, with a grommet fixed to the first section to extend or reduce the length you fish at.

Tips	Length (m)	Section	Casting Weight
2	4	6	100 - 200g
2	5	6	100 - 200g

### Artico Speedy Jiggle

The Speedy Jiggle 40-200g is at home in all light to medium inshore boat and kayak fishing situations. Featuring a plug in nylon tip for greater sensitivity and backed with a strong power horse butt section the Speedy Jiggle is ideal for reef and wreck fishing for Pollock, Cod, Bass and is fast proving itself as great an all-rounder. The SJ tip offers exceptional bite detection when bait fishing and on the drift for species such as Plaice and Gurnard.

Tips	Length (m)	Section	Casting Weight
1	1.8	2	40 - 200g
1	2.0	2	40 - 200g
1	2.2	2	40 - 200g
1	2.4	2	40 - 200g
1	2.7	2	40 - 200g
1	3.10	2	40 - 200g

### Artico Twin Jiggle

As the title Twin suggests, this is indeed a multi-function rod with jigging and lure fishing at its core it's equally at home bait fishing from both kayak and boat. It is made from high modulus carbon in two sections with a separate nylon tip section that is packed with sensitivity and strength. It is available in six sizes between 1.80m-3.10m, all hand built in Italy by Artico.

Tips	Length (m)	Section	Casting Weight
1	1.8	2	40 - 200g
1	2.0	2	40 - 200g
1	2.2	2	40 - 200g
1	2.4	2	40 - 200g
1	2.7	2	40 - 200g
1	3.10	2	40 - 200g

## SURF RODS

### Artico Silente 5015 Rod Green 80 – 120g

A State of the Art series of three piece continental rods that are dedicated to surfcasting. The Silente is manufactured by Artico in their factory in Pordenone, Italy using unidirectional composite carbon, differentiated in form and orientation and V.A.R.A.M, this creates a fast action blank that is only 18mm in diameter and incredibly light at only 558g, well balanced but with a large reserve of power.

Length (m)	Section	Casting Weight
4.5m	3	80-120g

### Artico Silente 6016 4.5m

The range topping 6016 is the highest spec model in the Silente series and features Artico's highly refined V.A.R.A.M unidirectional composite carbon to create a 4.5m continental rod that is astonishingly light at just 485g. With an exceptionally thin 16mm blank the 6016 completely redefines the boundaries of beach casting rod design and takes shear fishing pleasure to the next level. Two models are available casting up to 150g or 200g with either Fuji BNOG or Fuji Alconite K Guides.

Length (m)	Section	Casting Weight
4.5m	3	150 and 200g

### Artico Silente 5015 Rod Blue 120 – 180g

The Silente 5015 Blue casts up to 120-180grams. With its 4.5m length, fast action and unique double action tip the fast and responsive blank of this continental rod allows long distance casting with ease along with superb bite detection, as used by Former World Shore Angling Champion Chris Clarke. Available with Fuji BNOG or Fuji Alconite K Guides.

Length (m)	Section	Casting Weight
4.5m	3	120-180g

**Chris Clarke – Former World  
Sea Angling Champion (shore)**

A Specifically designed range for the serious UK angler the X Gladius series has been built to withstand the demanding UK shore conditions and features Artico's exclusive V.A.R.A.M, powerful blank design and Double-Action Tip technology to increase casting ranges by over 25%

### Artico X – Gladius 3000 Special UK 4.5m

The 3000 UK Edition has been made specifically for the UK surfcasting market and features a very powerful construction suited to the demanding UK shore fishing conditions. Constructed from high modulus carbon the 3000 UK Edition tackles rough ground and big tides with ease. These 3 section rods are available in two weights 130/180gms, and 180/250gms for a choice of actions.

A further innovation of this series of rods is the "double action" top, whereby the last 10 inches have been treated with a special system: the V.A.R.A.M which is patented exclusively for Artico by Pordenone house. This allows for additional power in the final part of the cast, adding 25% more range than a regular rod, a feature proving very popular with match and recreational beach anglers.

Length (m)	Section	Casting Weight
4.50	3	130/180g
4.50	3	180/250g

### Artico X – Gladius 3000

At 4.30m the shortest of the X-Gladius range offers three casting weights: 80/130gms, 120/180gms, 180/240gms to suit all angling situations.

Again featuring Artico's "double action" top. Whereby the last 10 inches have been treated with the V.A.R.A.M, patented by Pordenone house which allows for additional power in the final part of the cast, adding 25% more range than a regular rod, a feature proving very popular with match and recreational beach anglers.

Length (m)	Section	Casting Weight
4.3	3	80-130g
4.3	3	120-180g
4.3	3	180-240g

### Artico X-Gladius 4000 UK Special 4.50m

The range topping 4000 is the highest spec model in the X-Gladius series and features blank construction with 9 different types of carbon to produce a power house rod weighing only 600g! With an exceptionally thin blank the 4000 has been designed for the serious UK distance angler and offers unique performance that allows you to effectively fish at long distances, in very rough seas, yet retain sensitive bite detection. Artico has achieved this through the incorporation of new tip Technology "Fibre Pitch" which couples Ultra-Light carbon to the last 25cm.

This New design also provides additional support when casting and copes with the added stresses of demanding UK conditions as well as maintaining power throughout the cast and giving up to 25% more distance. The range is composed of three rods all with lengths of 4.50m with 80/130gms, 150/200gms and 180/250gms casting weights.

All rods are made with Fuji components right down to the bottom of the Butt where a Fuji BRC rubber Butt Grip is fitted. All models are also available with two types of Rings; Fuji K-Series Alconite or Fuji BNOG.

Length (m)	Section	Casting Weight
4.50	3	80/130g
4.50	3	150/200g
4.50	3	180/250g

**Chris Rae - Team Cod' Eds**

## BIG GAME

Experience, technology and tradition distinguish the Artico Big Game series. Created in collaboration with some of the most prestigious Big Game champions, each customisable rod is hand constructed with the most technologically sophisticated materials available, including the exclusive Ferrari V-AR-AM Prepreg Carbon composite and Fuji components.

### Artico Colibri Boat Rod

Made from High Modulus T700  
Pre-Prep Ferrari Carbon V-AR-AM  
exclusively granted to Artico by Ferrari

A unique and distinguished style and performance from Artico. The Colibri range aims to offer a well-balanced rod that is sensitive and reactive yet with a great resource of energy. Light in the hand the Ferrari Carbon blank offers adaptive progressive power to tame fish like snapper and amberjack and equally at home targeting big UK species such as Conger and Ling, making it a highly versatile rod – fully customisable (guides, reel seat)

Length 7'0" • Lbs 4-6-8-10-12-16-20

Elements: 2 • Handle: 68cm • Tip end: 156cm • Plug-in "put in"  
Rings: Fuji Alconite CLAG – Fuji Alconite CHBNH

### The Honoria Caesar – Stand up Series

Built for anglers targeting the largest marine predators such as Bluefin Tuna, Marlin and Sailfish. These are very accurate, efficient rods that have been hand built in Italy to withstand the worlds' most powerful fighting fish. With actions ranging from 20/30 lb to 50/80 lb they are able to cover the needs of any big game situation. Being fully customisable anglers can choose the components that they prefer, for example the ALPS rollers or WT rollers. Progressive yet reactive the Ferrari carbon blank is extremely light. Available in 165cm as standard or 185cm Hybrid model aimed at those fishing from boats equipped with outboard motors.

Length 165 - 185cm • Lbs 20-30 30-50 50-80

### Aquila Marina – Popping Series

Artico's first complete popping series that is made entirely in Italy and available in 10 different models to suit all requirements. The fast actioned Aquila Marina is light, strong and due to its length, very easy to handle in the boat. Built with the exclusive Ferrari carbon and V-AR-AM and lightweight EVA grip the rod can be made in any of the Fuji K series guides.

Length (ft)	Gr	PE Line	Max Drag Lbs
7'0"-7'6"	60-120	3-4	20
	80-140	4-5	30
	100-240	5-8	50
8'6"-9'0"	60-120	3-4	20
	80-140	4-5	30

### Vampira – V.J Series

The Vampira has a length of 1.60m and supports weights of 60-350g. Lightweight and specialised to allow very quick and easy jigging without straining the arm of the angler, it is made from PREPREG FERRARI carbon –V-AR-AM exclusive for Artico and features a Fuji Alconite CMNAG mount and a truly luxurious finish. Quick and fast, both for deep sea and midwater fishing it offers first class sensitivity.

Length (m)	Section	Casting Weight
1.60m	2	60-350g

### Vampira Voyager – V.J Travel Series

The New Vampira Voyager is made of three plug-in sections with the best carbon composite, it's designed to facilitate the specialist angler on their travels. The compact size (only 60cm in length) allows it to be carried as hand baggage but yet still maintaining the same technical features as its two piece.

## MULTIPLIER REEL

### Artico EVA Multiplier Reel

The Artico EVA is designed for the most demanding Angler. It is compact and light weight compared to similar products of the same size and features high fluidity in its gearing giving supreme operating smoothness. Manufactured by renowned Italian specialists Everol, in partnership with Artico, it is built from precision components and CNC machines using the highest quality materials available. The EVA is available in 4 sizes 12, 20, 30 and 50.

Size	Gear	Ratio	Weight Line	Capacity	Mono	Max Drag
12W	4.8:1	680g	5+1	750lb	450	20lb
20W	4.8:1	820g	6	880lb	700	30lb
30W	3.7:1	1350g	6	650lb	400	50lb
50W	2.9:1	1850g	6	1.100lb	620	80lb

This range of rigs and feathers have been specially sourced and selected by England International Anglers and World Champions Neil Bryant and Ray Barron. They are suitable for all forms of Sea Fishing and can be used when fishing from a boat, shore or pier and are made from good quality components making them some of the best available.

## SHORE & BOAT RIGS

### 1 Hook Clipped Rig 2/0

The clipped rig enables you long distance casting. For use from a boat, shore or pier. Very good for catching cautious fish like Bass and comes with super sharp 2/0 hook.

SKU: 123975

### Clip Up Rig 1/0

The Clip Up rig enables you to cast delicate baits long distances. As the clip has been reversed and the bait is presented hard on the bottom once unclipped and also maximises the distance between bait and lead to prevent tangles.

SKU: 123930

### 2 Hook Clipped Rig 1/0

Ideal for fishing over clean ground for Whiting, Dogfish, Codling and Flat fish. This clipped rig assures the bait is presented well on contact with the ocean, the cascade swivel keeps it neat during the cast.

SKU: 123970

### 2 Hook Long Flapper Rig 2

Great for paternoster, uptide boat fishing or for casting from the shore or pier. The hooks are super sharp and ideal for catching Codling, Whiting, Smoothound and large Bream.

SKU: 123980

### 2 Hook Loop Rig 1/0

Use from the shore or pier to catch Codling, Whiting, Dogfish and Smoothounds. Ideal rig for medium to long range casting over clean ground.

SKU: 123955

### Pulley Pennel Rig 1/0

Ideal rig for fishing over rough ground and fishing at distance for big fish. Can be used from the shore or pier and from a boat when casting with grip lead. Ideal for Rays, Dog fish, Codling and Smoothounds with super sharp quality hooks.

SKU: 123950

## SHORE & BOAT RIGS

### 2 Hook Flapper Rig 1/0

A great all rounder, can be used on the shore, pier or boat. Super sharp hooks come as standard with our rigs.

SKU: 123960

### Two Down Flowing Rig 2 Baitholder

Designed for uptide, downtide or drift fishing from boat or kayak. The rig comes with a boom already attached to save you time. The hook is a size 2 bait holder ideal for larger worms and fish strips, complete with attractor beads.

SKU: 123905

### Two Down Flowing Rig 4 Baitholder

Designed for uptide, downtide or drift fishing from boat or kayak. The rig comes with boom already attached to save you time. The hook is a size 4 bait holder ideal for small bunches of worms, complete with attractor beads.

123910

### Easy Cast Childrens Rig 8

The secret parents rig that keeps both children and parents entertained! The rig is a traditional 'scratching' style rig that uses 3 small size 8 hooks, perfect for targeting mini and unusual species from shore and boat.

SKU: 123915

### Three Hook Paternoster Rig 2

A three hook rig with a 2 up 1 down arrangement using size 2 baitholder hooks presented on 25lb trace off of a 60lb body line. This is an ideal rig for targeting multiple catches from shore or boat and particularly effective for species such as Whiting and Codling.

SKU: 123890

**Jim Whippy and his multiple match winning rig, the Three Hook Paternoster**

### Two Hook Paternoster Rig 2 baitholder

Ideal from both shore and boat the two hook paternoster rig uses size 2 super sharp baitholder hooks allowing you to present two baits at a time, doubling your chances.

SKU: 123920

### Easy Cast Fish Finder 4

A 3 up rig made with super sharp size 4 worm hooks that has been designed for 'easy casting' and easy fishing. This simple rig is ideal for shorter range fishing from boat, pier and rocks where multiple baits can be used to attract the fish.

SKU: 123885

**"Bluezone angler Kyle Waterhouse in the Ocean Kayak Classic 2015"**

## SHORE & BOAT RIGS

### 3 Hook Flapper Rig 1

The three hook flapper is a super rig suitable for using from the shore, pier or boat when used as a paternoster. It's versatile and suitable hook sizes 1/0 catch most species of fish and the hooks are fine and sharp.

SKU: 123965

### Big Fish Rig 7/0

This is the rig for catching big fish in the tide. The extra long trace line allows the bait freedom to flow and the wire section prevents bite offs. Superb for baiting with whole Squid, Cuttle or Mackerel Flapper.

SKU: 123985

### Flowing Rig 4/0

This rig is ideal for uptide or downtide from a boat and comes with the boom already attached to save you time. The hook we use is a 4/0 good quality sharp hook ideal for Bass, Pollack, Cod and Rays.

SKU: 123995

### 2 Hook Wishbone Rig 4/0

The Wishbone rig presents two baits close together and improves scent trails. It can be fished both uptide and downtide and is particularly effective on the drift. Fitted with two 4/0 hooks it targets larger fish such as Ray, Cod and Smoothhound.

SKU: 123990

## FEATHER RIGS

### 3 Hook Feather Rig 2/0

SKU: 124025

Made with three 2/0 hooks the feather rig is designed to imitate bait fish to attract bait fish species such as mackerel and herring. The feather rig is also particularly successful at targeting Pollock and can even be baited to catch Whiting and Cod, a great all rounder!

### 3 Hook Hokkai Luminus Rig 1/0

SKU: 124000

The Hokkai Luminus Rig uses glow in the dark or luminous lures attached to the three hooks in order to entice fish to the rig. Best used in deeper water or in poor light conditions where the added visibility can give you an edge with species such as Cod, Whiting and Pollock.

## FEATHER RIGS

### 4 Hook Sea Reflector Rig 2/0

SKU: 124010

The sea reflector rig uses highly reflective foil on the hooks to imitate bait fish schools such as Sprats and Sandeels. Made from high quality components it's best used in bright sunlit conditions to maximise the effectiveness of the reflection.

### 4 Hook Silver Tinsel Rig 2/0

SKU: 124020

Similar in style to the reflector rig but using silver tinsel instead, again on 2/0 hooks. Made from high quality components this is an absolute classic in bait fishing for mackerel and herring as they replicate schools of baitfish. Works well in all conditions.

### 4 Hook White Flash Rig 2/0

SKU: 124015

Made from high quality components the white flash rig uses white lures as the attraction base. Works well in all conditions and even more so at night. 2/0 hooks to suit the mouth sizes of Mackerel and Herring.

### 5 Hook Hokkai Purple Rig 2/0

SKU: 124005

The Hokkai Purple rig uses slightly larger purple Hokkai style lures on 2/0 hooks and due to the size are particularly effective at targeting larger Pollock, Cod and Bass along with the usual bait species. Made from high quality line and using 5 hooks this rig can be deadly for hooking large string of big fish in a single drop.

### 5 Hook Mini Hokkai Rig 4

SKU: 124035

The Mini Hokkai rig uses smaller size 4 mini Hokkai style lures to target smaller bait species such as smelt, herring and Launce but will at the same time attract the usual species such as Mackerel. Made from high quality components this is the go to rig for mini species.

### 5 Hook Purple Flasher Rig 2/0

SKU: 124030

Made from high quality components the purple flasher rig uses long trailing purple reflective 'flashers' to imitate bait schools and Sandeels. With 5 razor sharp hooks this rig is very effective when the fish are feeding on Sandeel.

## SABIKI FEATHER RIGS

### Sasame S-301 Sabiki Feathers

**Size: 6 and 8**

Code S-301

The S-301 is an imitation Prawn/Shrimp pattern in pink made with 5 super sharp Sasame hooks presented on a 3cm high quality monofilament snoods and spaced 20cm apart this 1.3m long rig is the smallest in the Sabiki range and is particularly effective for targeting mini species over rough ground.

### Sasame S-851 Sabiki Feathers

**Size: 4 and 6**

Code S-851

The S-851 also uses Prawn/Shrimp pattern with the addition of small reflective beads to imitate the eye of the shrimp and offer a strike point for the fish. 6 razor sharp Sasame Hooks combined with the highest quality monofilaments, swivels and clips and available in 1.6 and 1.8m lengths and a range of hook sizes.

### Sasame S-854 Sabiki Feathers

**Size: 4, 7 and 8**

Code S-854

The S-854 is a miniature white flash rig that combines small white strips along with coloured bead heads to imitate schooling baitfish. 6 razor sharp Sasame Hooks combined with the highest quality monofilaments, swivels and clips and available in 1.6 and 1.8m lengths and a range of hook sizes.

Please note: Japanese hook sizes are the reverse of European sizes on all Sabiki Rigs.

Three times EFSA European Boat Champion  
Ray Barron

### Sasame S-853 Sabiki Feathers

**Size: 4, 7 and 8**

Code S-853

The S-853 is an imitation prawn pattern in Green, Pink and Yellow that also includes the additional small reflective beads to imitate the eye of the shrimp and offer a strike point for the fish. 6 razor sharp Sasame Hooks combined with the highest quality monofilaments, swivels and clips and available in 1.6 and 1.8m lengths and a range of hook sizes.

### Sasame S-855 Sabiki Feathers

**Size: 4 and 8**

Code S-855

The S-855 is a miniature high gloss flash rig that combines small glossy white strips along with coloured bead heads to imitate schooling baitfish. 6 razor sharp Sasame Hooks combined with the highest quality monofilaments, swivels and clips and available in 1.6 and 1.8m lengths and a range of hook sizes.

## SABIKI FEATHER RIGS

### Sasame S-858 Sabiki Feathers

**Size: 4, 6 and 8**

Code S-858

The S-858 is a miniature white flash rig made with a mini long shank hook to imitate schooling baitfish. 6 razor sharp Sasame Hooks combined with the highest quality monofilaments, swivels and clips and available in 1.6 and 1.8m lengths and a range of hook sizes.

### Sasame S-861 Sabiki Feathers

**Size: 6 and 8**

Code S-861

The S-861 is a Prawn/Shrimp pattern with the addition of small Lumi (glow in the dark) beads to attract fish in low light and dark conditions, ideal at night or deep water. 6 razor sharp Sasame Hooks combined with the highest quality monofilaments, swivels and clips and available in 1.6 and 1.8m lengths and a range of hook sizes.

### Sasame Z-008 Sabiki Feathers

**Size: 6, 8 and 10**

Code Z-008

The Z-008 is an 8 hook rig constructed with a mix of pink and white lures, Lumi bead heads to create high attraction for bait fish such as Launce, Mackerel, Pouting and Sandeel. Made from highest quality monofilaments, swivels and clips this is a rig for catching lots of bait very quickly.

Please note: Japanese hook sizes are the reverse of European sizes on all Sabiki Rigs.

### Sasame S-859 Sabiki Feathers

**Size: 4, 6 and 8**

Code S-859

The S-859 is superb for catching baitfish such as Launce, Sandeel, Mackerel and others. Made with the finest "fish skin" style lures, coloured in Silver and Green. 6 razor sharp Sasame Hooks combined with the highest quality monofilaments, swivels and clips and available in 1.6 and 1.8m lengths and a range of hook sizes.

### Sasame Z-007 Sabiki Feathers

**Size: 4, 6 and 8**

Code Z-007

The Z-007 is the only rig in the Sabiki range that is constructed with cross beads to aid presentation by allowing great rotation of the hook snood when a fish is hooked. Featuring Lumi beads, white flash and tinsel these lures are tied to 5 razor sharp Sasame Hooks and combined with the highest quality monofilaments, swivels and clips to produce a very neat presentation.

## MONOFILAMENT LINE

### Alcedo Titanium Soft 150m

Code: TISOFT150

A revolutionary treatment in a hot ion bath just after extrusion makes this line extraordinarily soft while extra long polymer chains and high density give it a fantastic linear knot strength. Recommended as a premium high quality line and for rigs and leaders as it is clear in colour and very low diameter for its specified breaking strain.

**Line Diameter:** 0.133 (5lb), 0.148 (6lb), 0.165 (8lb), 0.185 (10lb), 0.205 (12lb), 0.235 (15lb), 0.265 (21.6lb), 0.285 (23lb), 0.305 (25.9lb), 0.350 (33lb), 0.400 (46lb)

### DiP Chromium PRO 300m Line

Code: CHRPRO300

A revolutionary treatment in a hot ion bath, just after extrusion makes this line extraordinarily soft while the extra-long polymer chains and its high density give it a fantastic linear knot strength.

**Line Diameter:** 0.205mm (5.150kg), 0.235mm (6.450kg), 0.285mm (10.2kg), 0.305mm (11.5kg), 0.350mm (14.5kg)

## FLUOROCARBON LINE

### Sasame LFL-1 Fluorocarbon 50m

Code: LFL-1

With superb strength and high durability, faster sinking speed and does not stretch as much as normal lines. Superb for leaders and snoods, you will be impressed by its quality.

**Line Diameter:** 0.08mm (.56kg), 0.09mm (.66kg), 0.10mm (.98kg), 0.12mm (1.20kg), 0.14mm (1.27kg), 0.16mm (1.67kg), 0.18mm (2.07kg), 0.20mm (2.44kg), 0.22mm (2.96kg), 0.25mm (3.86kg), 0.28mm (4.44kg), 0.30mm (5.10kg), 0.35mm (6.30kg), 0.38mm (7.80kg), 0.40mm (9.50kg), 0.50mm (13.20kg), 0.60mm (18.90kg), 0.72mm (24.60kg), 0.78mm (27.30kg)

### DiP Chromium PRO 150m Line

Code: CHRPRO150

DiP Chromium Pro is the most popular line in Italy and for good reason. This line encompasses a soft colypolymer core monofilament technology from Japan. It is Smooth and offers low visibility and a highly abrasion resistant outer coating. A fantastic memory free line specifically created for long distance casting this line is extremely soft and well suited to the demands of the modern angler.

**Line Diameter:** 0.40mm (20.5kg), 0.45mm (27.5kg), 0.50mm (35.5kg)

### Sasame LFL-2 Fluorocarbon 250m

Code: LFL-2

Superb strength, high durability, with faster sinking speed than normal lines, and excellent durability make it one of the best qualities on the market today.

**Line Diameter:** 0.14mm (1.27kg), 0.16mm (1.67kg), 0.18mm (2.07kg), 0.20mm (2.44kg), 0.22mm (2.96kg), 0.25mm (3.86kg), 0.28mm (4.44kg), 0.30mm (5.10kg), 0.35mm (6.30kg)

## BRAID LINE

Bluezone are the exclusive UK distributors of Shout products. We have a small range in stock and if you have an enquiry then please contact us and we will be happy to send you a specific Shout catalogue.

### JungleGym J504 Skip Snap Power Clip

Code: J504

A small micro style lure clip designed for use in LRF set ups. **Size:** Normal (7pcs), Power (7pcs).

## SHOUT DANGAN CASTING JIGS

Bluezone are the exclusive UK distributors of Shout products. We have a small range in stock and if you have an enquiry then please contact us and we will be happy to send you a specific Shout catalogue.

The Dangan is no standard Jig! It has been specially designed for shore fishing and features a tail-weighted balance system and triangular shape to reduce air resistance, giving a stable flying position when casting. In Short this slow sinking lure can be cast a very long way from the shore. The Dangan has a flat upper side and beveled underside that causes it to flutter as it sinks, imitating an injured baitfish whilst it is falling through the water column.

The lure can be fished a number of way and produces a proper swimming action from a straight retrieve and can also be fished in a more traditional sink and draw jigging style. We have found the lure to work very well on the drop and the beauty with the Dangan is it allows you to work a large volume of water in a single cast. We recommend playing with the different styles until you find the depth the fish are feeding at.

The Dangan is suitable for all inshore predatory sea fish including Pollock, Wrasse and Bass and is also proving very productive for Mackerel, Garfish and even Launce! The Smaller 3g and 5g sizes will take a variety of mini species and jigging along the quay or harbor wall is a proven winner. Freshwater species such as Trout, Pike and Perch will also find this lure too much to resist.

The Jig comes rigged and ready to fish with a Shout salt water Treble hook and is available in a variety of colours.

**Casting Weight:** 3g, 5g, 10g, 20g

**Colour:** Blue, Blue Pink, Pink, Red Gold, Red Zebra, Silver

## P-LINE STOP GLUE MD

### Make the line Stronger by Removing ALL The Knots!!!

Results are exceptional, in fact tests prove that by removing knots the breaking strength can improve by 20/25% for nylon and fluorocarbon and 40% for braid!

As a monofilament producer P Line know very well what kind of problem knots give to our fishing lines. For this reason some years ago we started a cooperation with some P-Line's pro-staff to find a system to join lines without knots. Our job wasn't easy but we obtained a really exceptional and revolutionary result.

Stop Glue isn't a glue like the others, in fact it contains just a very little quantity of cyanoacrylate. A unique system composed of welding components that create mycrofusions among materials.

### Contents

- 1 x 2gr bottle of Stop Glue MD
- 1 x Locking Needle
- 2 x Micro Dispensers
- 10 x Tube Connectors (red)
- 10 x Tube Connectors (transparent)
